Invest in a sustainable future

Our experts will help you to benefit from local business opportunities while simultaneously making a valuable contribution to sustainable development.

We can advise you:

- → on financing and cooperation options in the context of German development cooperation
- → on issues of corporate social responsibility

We can support you:

- → in developing new markets
- → in finding suitable business partners

You benefit:

- → from our national and international network and our contacts in the private sector and politics
- → from our expertise in implementing local and regional projects

A local presence around the world

Our experts work in around 30 countries in German Chambers of Commerce (AHK), **Delegations of German Industry and Commerce** and bilateral business associations.

For an overview of all our experts and their fields of work, go to: www.bmz.de/wirtschaft (German).

Federal Ministry for Economic Cooperation and Development

Partner of tomorrow's markets

ExperTS

Economy. Transfer. Sustainability.

In cooperation with

Centre for International Migration and Development

Experts around the world

The ExperTS programme promotes sustainable business practices around the world. In around 30 countries, experts placed by the Centre for International Migration and Development (CIM) are advising local and German companies on development policy issues. The programme, which is funded by the German Federal Ministry for Economic Cooperation and Development (BMZ), aims to forge closer links between foreign trade promotion and development policy. It is being implemented jointly by the Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH, the German Chambers of Commerce, Delegations of German Industry and Commerce and bilateral business associations.

Progress made in Germany – a wide range of cooperation options

Are you seeking to set up operations in emerging economies and developing countries? Do you want to establish a strong local presence and ensure your business is on a sustainable footing? Then why not combine your business expertise with our regional knowledge. Our experts will help you establish local contacts and initiate mutually beneficial cooperation arrangements.

Our main areas of activity

Sustainable economic development

Our objective: sustainable growth

We help to advance the sustainable development of the local economy by promoting the export industry and innovation.

Our activities:

- → Helping companies establish business contacts through fact-finding missions for delegations and trade fair participation
- → Establishing links with local partners from the spheres of business and politics
- → Supporting marketing activities
- → Promoting cooperation with the academic and research communities

Renewable energy and energy efficiency

Our objective: climate change mitigation

We support the sustainable generation and use of energy through technology and knowledge transfer.

Our activities:

- → Setting up Energy Desks to provide expert advice and support
- → Training local experts
- → Helping companies establish business contacts through fact-finding missions for delegations and trade fairs

Experts in around 30 developing countries and emerging economies

Establishing Chambers of Commerce

Our objective: stable economic relations

We establish structures for long-term economic cooperation.

Our activities:

- → Expanding the range of services available to German and local companies
- → Training advisory staff
- → Establishing links with the worldwide AHK network

Vocational training

Our objective: qualified staff

In cooperation with the private sector, we develop solutions for the vocational training of specialist staff.

Our activities:

- → Developing and carrying out certified dual vocational training courses
- → Promoting a dual system of higher education
- → Developing courses of further training in line with demand
